

Hello to all 70055 members!

Thank you for taking the time to complete the survey (i.e., in step 8). The information you provide will help us – your Local executive team – verify existing information for accuracy and allow us to better engage with all members under our local. Having updated information can help us connect more easily with you should the need arise (i.e., share information about the collective agreement process, offer support during a strike, notify you about an upcoming AGM, etc.), and allows us to ensure that your dues are going to the correct place as we continue building our engagement strategy that's main objective is to give back to our members.

The survey is voluntary. The information provided within is protected and is not shared externally. Contact information will only be used if you've won a prize and/or to provide you with updates should you opt-in for this. Information regarding engagement possibilities will be used internally to identify future events for the membership, and information regarding interest in supporting the local will also be used to further expand our resource base to ensure there is always someone available to assist you when the need arises.

**\*\*Note:** there will also be an option for you to provide your own ideas for engagement events. It's possible that not all events listed will occur this year, but the information collected will be used for future engagement activity ideas.

**Please complete all steps below before completing the survey (i.e., the link in step 8 will take you to the survey) – please do not submit this document as this is not the survey.** If you have completed any of the steps in the past, you can skip them and move onto the next step. Once all steps are completed, please fill in the survey (i.e., link in step 8) and submit your responses to be entered into one of our many prize draws.

If you have any questions during any of the steps, please contact:

Thank you,
